AS A MATTER OF FACT

Is the War With Spain Now Being Considered.

MOST NATIONS NEUTRAL.

It Is Thought Spain Will Soon Be Cut Off From Supplies,

ESPECIALLY NEAR CUBAN ISLAND

So Far as Known All United States Consuls Have Gotten Away From Spanish Territory Safely. Judge Day Is Confirmed.

Washington, April 27.—The conditions in Washington are rapidly settling down to those of actual war. Notices came to the state department from the four quarters of the globe showing that the nations as a rule are prepared to assume an attitude of strict neutrality as between the United States and Spain in the present struggle.

In most cases they were in answer to the identical note sent out Monday by the state department to all United States embassies and legations instructing them to inform the governments to which they are accredited that war has existed since April 21.

Great Britain always has taken an advanced stand in the principles of neutrality, so that it was with great interest that the news was received here of the terms of the neutrality proclamation issued in London.

On the whole the officials are disposed to take the view that a strict adherence by Great Britain to these rules will be rather more advantageous to the United States than to Spain, particularly as we are now operating, in the naval sense, close to our own base of supplies, and in all probability will soon cut Spain off from the two bases that she now has in the neighborhood of Cuba.

The president issued a proclamation during the day laying down rules as to the seizure of prizes, and the result, it is believed, will be the release of some of the ships already captured, though it will be for the prize courts to determine in each case whether the conditions under which the ship was captured are such as to warrant release.

The administration believes the greatest liberality should be shown in the application of the laws where a vessel is not contraband or attempting to run the blockade. That is shown in the liberal terms of the proclamation itself, by which the prize courts must be guided.

It is noted also that the administration has not been deterred by any criticism in congress from again formally pledging itself to the nations of the world to refrain from privateering and abide by the declaration of Paris of 1856.

So far as is known all the United States consuls have made their way safely out of Spain. Consul Fay at Dania has reported to the department from Lisbon, Consul Bowen at Barcelona from Paris, Consul Carroll at Cadiz and Consul Bartelam at Malaga from Gibraltar.

Secretary Sherman retired finally from the position of secretary of state, and his successor was confirmed in the person of Judge Day. Joseph Bassett Moore undoubtedly will be confirmed in Judge Day's place. The latter is expected to return to Washington in about two days' time.

The army reorganization bill became a law during the day, and the war department officials have begun to devise the best means of carrying out the purposes of the act, which will result in an increase of the regular army to more than 60,000.

In the war department preparations went on with ceaseless energy for the organization of the volunteer army. All the officers were detailed who are to be sent to the various states and territories to muster the guardsmen into the service of the United States.

The plans for the full organization of the army were also perfected. To provide officers for the regular army and volunteers Secretary Alger ordered the assignment to duty of all the cadets at the West Point Military academy who would be in the ordinary course of events have graduated in June.

The greatest anxiety was shown at the navy department for news from the blockading squadron. Notwithstanding the frequent reports that came from two unofficial sources of engagements between the fleet and the shore batteries, no word of confirmation came officially.

A few days ago Commodore Bradford, chief of the equipment bureau, tendered his resignation of that place and asked to be given a warship. After

considering the matter for a day or two the secretary returned an answer begging for the Kansas City Star cup and \$100 by the score of 90 to 86.

SPANISH VESSELS.

President McKinley Issues a Proclamation Defining Their Rights.

Washington, April 27.—The president issued the following proclamation respecting the rights of Spanish vessels now in or bound to United States ports, and also with regard to the right of search:

Whereas, By an act of congress, approved April 25, 1898, it is declared that war exists and that war has existed since the 21st day of April, A. D. 1898, including said day, between the United States of America and the kingdom of Spain; and,

Whereas, It being desirable that such war should be conducted upon principles in harmony with the present views of nations and sanctioned by recent practice, it has already been announced that the policy of this government will be not to resort to privateering, but to adhere to the rules of the declaration of Paris.

Now, therefore, I, William McKinley, president of the United States of America, by virtue of the power vested in me by the constitution and the laws, do hereby declare and proclaim:

First—The neutral flag covers enemy's goods, with the exception of contraband of war.

Second—Neutral goods not contraband of war are not liable to confiscation under the enemy's flag.

Third—Blockades, in order to be binding, must be effective.

Fourth—Spanish merchant vessels in any ports or places within the United States shall be allowed until May 21, 1898, inclusive, for loading their cargoes and departing from such ports or places; and such Spanish merchant vessels if met at sea by any United States ship, shall be permitted to continue their voyage, if, on examination of their papers, it shall appear that their cargoes were taken on board before the expiration of the above term; provided that nothing herein contained shall apply to Spanish vessels having on board any officers in the military or naval service of the enemy, or any coal (except such as may be necessary for their voyage), or any other article prohibited or contraband of war, or any dispatch of or to the Spanish government.

Fifth—Any Spanish merchant vessel which, prior to April 21, 1898, shall have sailed from any foreign port to the United States, shall be permitted to enter such port or place and to discharge her cargo, and afterwards forthwith to depart without molestation; and any such vessel if met at sea by any United States ship shall be permitted to continue her voyage to any port not blockaded.

Sixth—The right of search is to be exercised with strict regard for the right of neutrals and the voyages of mail steamers are not to be interfered with, except on the clearest ground of suspicion of a violation of law in respect of contraband or blockade.

WILLIAM McKINLEY.

Rich Prize Captured.

Key West, April 27.—The lighthouse tender Mangrove captured the steamer Panama, Captain Quevedo, a big transatlantic liner and an auxiliary cruiser of the Spanish navy, which has been plying of late between New York and Havana. She had 29 passengers, including three women, one Frenchman and one Mexican, and a crew of 72. As the Panama carried two 12-pounders she could easily have annihilated the little Mangrove. The Panama carries a valuable cargo of general merchandise, including a large quantity of corn. Much of it was meant to provision the Spaniards in Cuba.

Canadians Against Spain.

Chicago, April 27.—A committee composed of George A. Baynes, late major of Montreal garrison artillery; D. N. Campbell, late Canadian militia, and W. H. F. Holmes, late Queen's Own Rifles, Toronto, have called a meeting of Canadians who are in sympathy with the United States in the present war movement against Spain and are willing to volunteer their services and form a Canadian regiment. The object is to raise a battalion composed of Canadians of whom there are upward of 50,000 here.

Germany Still a Conundrum.

Washington, April 27.—The reports that Germany would not issue a proclamation of neutrality, in order to leave her hands free for intervention if it seems to be desirable, can not be confirmed in diplomatic quarters here. On the contrary, there is every indication that Germany will observe strict neutrality, and a semi-official announcement to that effect was made about a week ago in one of the inspired newspapers of Germany.

Will Observe Neutrality.

London, April 27.—The consuls general of Ecuador, Nicaragua, San Salvador, Honduras, Costa Rica and the Republic of Santo Domingo, all of whom have been interviewed with respect to the attitude of their respective governments declare that their countrymen sympathize with Spain, but that their respective governments will observe the strictest neutrality.

Sailed In Great Haste.

New Orleans, April 27.—Captain Jones of the British steamer Montpelier, from Liverpool via Las Palmas, reports that the Spanish torpedo flotilla, consisting of two torpedo boats, four torpedo boat destroyers and the Spanish transatlantic steamer Cadiz, with ammunition, sailed from Las Palmas on March 23 in great haste. Their destination was not known.

WILL BE A REVOLUTION

Hot Times Are In Store For Murderous Old Spain.

THE DYNASTY SURE TO FALL

Republicans and Carlists to Form a Combination.

MARTIAL LAW TO BE DECLARED.

What the Future Form of Government Will Be Is a Matter of Uncertain Speculation, but Anarchy Will Probably Reign.

Madrid, April 27.—There now appears no possibility of avoiding a revolution in Spain which will overthrow the present dynasty. The government realizes this, and martial law will probably be declared throughout the kingdom within the next few days.

Taking advantage of the present war with the United States the Republicans and Carlists will combine and wipe the present ruling power out of existence forever.

What sort of government will be built upon the ruins is a matter of rather uncertain speculation, but it is quite likely anarchy may reign for some time.

The Republicans, headed by Castelar, would probably insist on a republican form of government, while the Carlists, headed by Don Carlos, would contend for a Carlist sovereignty.

It is impossible to understand how these two extreme claims could be reconciled, and the result must be ruinous to the country. Finally, the European powers may dismember Spain and wipe her from the map.

Another Appeal to Powers.

Madrid, April 27.—The Spanish government sent a circular to the powers, supplementing its circular of April 18, and expressing regret at the "hard necessity of being compelled to appeal to force in order to repel the scandalous aggression of the United States, and defend the national dignity and historical integrity of the fatherland."

Very Much Concerned.

Madrid, April 27.—Military and financial circles are very much concerned about America's line of policy, fearing the United States authorities intend to drag on the war until their preparations are completed and the rainy season is over, in the meanwhile blockading the Spanish colonies and intercepting communications, thus multiplying Spain's financial embarrassments.

Blanco Seems Very Confident.

Madrid, April 27.—General Blanco cables that the situation is unchanged. His dispatch says: "This (Tuesday) evening a division of five American vessels approached Marianao. The Spanish gunboat Nigera repulsed three torpedo destroyers which entered the port of Cardenas and compelled them to retreat. I believe the Americans will not dare to disembark in Cuba."

Martial Law Necessary.

Madrid, April 27.—Ministers say that if the Republicans and Carlists persist in the attitude foreshadowed in the cortes, it will be necessary for the government to suspend the constitutional guarantees. This is generally considered a preliminary step to decreeing martial law.

Spain Admits Loss of Cuba.

Madrid, April 27.—It is openly admitted here that Spain has already lost Cuba, and that her only hope now is to stir up "a general conflagration of Europe against Anglo-Saxon domination." This is thought to mean a holy war.

French Proclamation.

Paris, April 26.—At the cabinet council here the minister for foreign affairs, M. Hanotaux informed his colleagues of the neutrality instructions issued, and the council approved of a proclamation of neutrality, which is identical with the proclamation issued at the time of the Russo-Turkish war.

No More Recruits Desired.

New York, April 27.—William Astor Chanler, who has been recruiting a volunteer regiment, has now 1,500 men enrolled and will receive no more applications. All the men will be expected to undergo physical examinations, and after that drilling will be begun.

Not Captured.

New York, April 27.—In cable dispatches the British steamer Shenandoah, which sailed from Newport News April 13 for Liverpool, was reported passed Kinsale, on the Irish coast. His sets at rest any question of her having been captured by the Spanish.

Spanish Officer Captured.

Key West, April 27.—The torpedo boat Porter has arrived from off the Cuban coast and reports that the position of the blockade continues unchanged. There has been no firing on either side. The United States cruiser Cincinnati captured Lieutenant Pedro Fernandez of the Spanish army, who was returning to his family on a small sloop. Lieutenant Fernandez is detained on the flagship.

Must Lead to an Alliance.

Berlin, April 27.—The New York correspondent of the Cologne Gazette cables his paper that he learns from "an especially trustworthy source" that agreements already exist between the United States and Great Britain "which, if the present British cabinet continues in office, must lead, in the further course of events, to an alliance."

Why Doesn't France Do It?

Paris, April 27.—The Temps urges the powers to take prompt and energetic measures to prevent the United States forces from cutting the Cuban cables, claiming such a step would be "an open violation of existing treaties and the principle of modern law, and a grave injury to the interests of Spain."

Lieutenant Rowan In Cuba.

Kingston, Jamaica, April 27.—Lieutenant Andrew S. Rowan, United States army, has landed on the coast of Cuba near Santiago from an open boat, accompanied by Cuban guides. He is on his way to General Garcia's camp as a representative of the war department to arrange for the landing of United States troops in eastern Cuba, Garcia to cover landing.

Four Thousand Men.

Chicago, April 27.—Over 4,000 fighting men marched out of Chicago bound for the war. Since the early days of 1861 no such scenes were witnessed in this city as transpired in the regimental armories, in the streets through which the columns marched and around the trains which bore them to the camping ground at Springfield.

Flying Squadron Expected.

St. Thomas, Danish West Indies, April 27.—St. Thomas has been expecting daily the arrival of the United States Flying Squadron. The enthusiasts climb the hills and sweep the horizon with field glasses for signs of the fleet.

Spanish Gunboat Sighted.

Plymouth, England, April 27.—It is rumored here that a Spanish gunboat is patrolling the entrance of the channel, off the Lizard—the lighthouse situated on the extreme southwestern coast of England.

Is He Conspiring?

Toronto, April 27.—The published statements that Senor Polo was conspiring against the United States on Canadian soil were characterized by the Spanish vice consul as fanciful inventions.

Arrived at Hongkong.

Hongkong, April 27.—The steamer Emerald, with the United States consul at Manila, Mr. O. F. Williams, on board, has arrived here from the capital of the Philippine Islands.

Colonel Hay Did It.

London, April 27.—The United States ambassador, Colonel John S. Hay, officially informed the British foreign office that the United States had declared war against Spain.

Conference Report Agreed to.

Washington, April 27.—During the two hours' session of the senate the conference report on the army reorganization bill was agreed to and the measure engrossed and signed.

Mustering Officers Selected.

Washington, April 27.—Capt. C. M. Rockfellow, Ninth infantry, and First Lieutenant Waldo E. Ayer, Twelfth infantry, will go to Columbus to muster in the Ohio volunteers.

Work of a Spanish Spy.

Santa Cruz, Cal., April 27.—The California powder works here exploded, killing seven men and injuring others. It is thought a Spanish spy caused the explosion.

Two Good Ones Purchased.

New York, April 27.—Hamburg-American line officials announce that the Fuerst Bismarck and Hamburg have been purchased by the United States.

The Class Graduated.

Highland Falls, N. Y., April 27.—West Point graduated the class of 1898. The stern requirements of the service permitted nothing but short ceremonies.

The Paris Heard From.

Queenstown, April 27.—The steamer Majestic reports passing an American liner, presumably the Paris, Monday morning in latitude 48.52, longitude 29.06.

Minneapolis Steams Eastward.

Rockland, Me., April 27.—The steamer Mount Desert sighted the cruiser Minneapolis at 3:30 p. m.

FOUL PLAY SUSPECTED

Finger Prints Found on a Dead Stranger's Throat.

BULLET HOLES IN HIS HEAD.

It Is Believed He Was Murdered and Thrown From a Train, as a Stream of Blood Was Traced For a Considerable Distance.

Danville, Ind., April 27.—The body of an unknown man was found by the side of the railroad at Reno with two bullet holes in the right side of the head. The body had been thrown from the westbound train as marks on the ground show. A stream of blood is plainly distinguishable along the track for 30 yards. Finger prints on the throat indicate a struggle.

The man was about 20 years old, 5 feet 4 inches tall, of light complexion, auburn hair and wore No. 6 tan shoes. The only thing about him throwing any light on his identity was an account book with "William" on the cover. He was taken to Coatsville and embalmed to await identification.

Window Glass Industry.

Anderson, Ind., April 27.—Another 5 per cent raise in window glass, though not yet officially announced, is understood to go into effect between May 1 and May 10. Notwithstanding the war fever, which is to a certain extent disorganizing the markets, the window glass demand still continues on the increase. Consumption is now thought to be 75,000 boxes over the normal, which is 441,000 boxes per month. Production is now 685,000 boxes—the product of 1,851 pots—almost the limit of productive facilities.

Farmer Suicides.

North Manchester, Ind., April 27.—Daniel Mishler, a farmer, hanged himself to a tree.

LOGAN SQUELCHED.

Son of "Black Jack" Denied the Command of an Illinois Regiment.

Springfield, Ill., April 27.—John A. Logan's ambition and determination to command a regiment of cavalry from Illinois, although he is a resident of Ohio, and his influence with General Alger, the secretary of war, delayed the official call for troops from Illinois for hours, and for a long time threatened to prevent Illinois from furnishing more than a single troop of cavalry, instead of a regiment, as expected.

Governor Tanner, however, was fixed in his determination to stand by the Illinois national guard at all hazards, and insisted that if Illinois furnished a regiment of cavalry it should be the one now connected with the national guard and commanded by Major Young of Chicago, instead of one headed by Logan.

As the result, a spirited correspondence was carried on by wire ending in the appointment of Major Young to be the colonel of the Illinois regiment of cavalry.

Board of Discipline.

Cincinnati, April 27.—The board of discipline of the National league, which will try the cases of players who violate the Brush rowdy ball resolution, will hold its first meeting in St. Louis next Saturday. WAR BRIEFS.

IN THE OPINION OF NAVAL OFFICERS THE FIRST REAL CONFLICT IN THE SEA WILL BE IN THE NEIGHBORHOOD OF THE PHILIPPINE ISLANDS. THE CHANCES ARE THAT IF A FIGHT OCCURS IN EAST INDIAN WATERS THE NEWS MAY NOT REACH THE UNITED STATES FOR SEVERAL DAYS LATER.

REGULARS WILL SOON LAND ON THE CUBAN COAST. FIVE THOUSAND MEN IS DEEMED SUFFICIENT TO ACCOMPLISH HAVANA'S DOWNFALL. THEY WILL CARRY A PLENTIFUL SUPPLY OF ARMS AND AMMUNITION TO THE INSURGENTS. THE COMBINED FORCES WILL THEN SWEEP DOWN UPON THE CITY FROM THE REAR. WHILE THE SQUADRON OF SAMPSON IS HURLING SHOT AND SHELL FROM THE OUTER HARBOR.

SECRETARY LONG HAS ANNOUNCED HIS INTENTION OF PURCHASING THE HOLLAND SUBMARINE TORPEDO BOAT.

HOLLAND HAS OFFERED HIS SERVICES TO THE GOVERNMENT AS COMMANDER, AND SAYS HE CAN HAVE A PICKED CREW ON BOARD AND BE IN HAVANA WITHIN THE NEXT TEN DAYS. HIS PROPOSITION IS TO UTILIZE THE BOAT IN BLOWING UP MORRO CASTLE.

A DUEL TO THE DEATH.

A certain rude fellow of the baser sort, claiming to be an officer in the Spanish navy, has challenged Fitzhugh Lee for alleged reflections upon the honor of his guild, in connection with the disaster to the Maine. Of course General Lee will allow such a challenge to pass. Neither his courage nor his character can be called in question now; and it is hardly to be presumed that, after surviving the perils which have environed him in the gulf, he will even take the risk of being kicked to death by a Spanish jackass on Canadian soil. Ancient prophecy has predestined this gallant Virginian to a better fate. Nearly three hundred years ago a Governor of the Old Dominion, writing to the English Premier, Sir Ralph Winwood, declared that the little colony on the James, which the King of Spain had threatened to destroy, would one day "put a bit in their ancient enemy's mouth." That day has at last come, and Fitzhugh Lee, the scion of a soldierly Virginian race, is the instrument providentially selected for the work. It will be a rare bit of poetic justice when an army of the American republic moves into the city of Havana, with a Virginia Captain riding ahead. The old Governor at James own was not the only statesman of his generation who looked into the future with a prophetic eye. The Spanish Minister at the English court had a vision equally clear, and, had his urgent advice been followed, the young Anglo-Saxon commonwealth would have been strangled in its cradle by Philip the King. But the opportunity was lost, and, to-day, our "ancient enemy" is standing up in a duel to the death with the most powerful branch of the hated and indomitable British race.

Sneering at Your Local Paper.

Many people have a habit of sneering at a local paper because it does not contain all the news of the world each day like the metropolitan dailies. Persons who have a good local paper in their town often thoughtlessly say, "Why, I can get the great city paper for the same price per year." They should take the great city paper, it is true. They should also take the home paper. A local paper is worth a great deal to a community, both individually and collectively. The news of the immediate community is always fresh before the patrons of the local paper. The whole section of the country is benefitted in a thousand ways. Those who sneer at local newspaper are usually the most unprogressive fellows in the whole community. The place and usefulness of the local paper is never appreciated by those wiseacres, until their self important conceit and devil-begotten penuriousness have frozen the local paper out, and sent the editor howling to the poor house.

CERTAIN DEATH.

That is Almost Sure To Be the Fate of the Crew of An Attacking Torpedo Boat.

[New York Sun.]

The relative danger of services on our different fighting ships is just now the subject of interesting speculation on the part of our navy officers, and one officer summed it up last week in this fashion: "The crew of a torpedo boat that goes into action must embark with almost a certainty of death. If they are ordered to attack in the daytime their only hope is to avoid the rapid-firing guns of the ship which they expect to blow up. The boats are constructed to make a bold dart at the enemy and fire a torpedo, but they would be sunk by a well-aimed rapid-fire guns easily. Even in a night attack the chances are that the enemy's searchlights would pick them up, and then it would be a race to discharge their torpedoes before they were sunk. The destruction of a large percentage of torpedo boats is always counted on in a general engagement. The dynamite cruiser Vesuvius would offer as much danger to her crew as a torpedo boat if she went into action. You must remember that when she is loaded to fight she carries a great quantity of dynamite, and if an enemy's projectile penetrated to her magazine, the men on board would never know what happened to them. If the Holland submarine boat should be accepted by the Government, her crew would, to my mind, run a very fair chance of going to the bottom. Granting that she can do all that is claimed for her, if she were sent out to sink a battleship and she exposed her turret even for a short period, she would be in danger of being struck. Supposing she gets near enough, however, to launch her torpedo successfully, she would very likely become the prey of the surrounding vessels, which would be eager for revenge. However, the chances would be worth it, and there would be no difficulty in finding crews for such boats. The destruction of a battleship at no greater cost than that of a submarine boat and a small crew would be a distinct gain. Let me add that the greater opportunity for distinction on these dangerous boats makes them desirable billets in the minds of most of our younger officers."

FIFTY THOUSAND MEN,

Says Governor Bradley Could "Old Kentucky" Raise Ready For Service in a Few Days.

The official call for troops from Secretary of War Alger was received by Governor Bradley at 6 o'clock Monday evening.

The Governor said that the troops would be ready to muster in ten days at the farthest. He then made the following statement to the press which explains itself: "It is quite gratifying that so many gallant Kentuckians have offered their services. I have no doubt that 50,000 soldiers could be obtained in ten days. The idea which prevails that I have issued commissions is untrue. I have issued no commissions, and up to this time have had no power to do so. Several companies have been formed lately which have been in course of formation for some time to supply vacancies in the State Guard, occasioned by companies having been mustered out. In some instances persons have organized companies on their own responsibility. The present call, as I understand it, will not cover more than the three State Guard Regiments when recruited to their full force. I have been informed by the Colonels of these regiments that they have arranged to complete their regiment, hence I give this notification so that there may be no misunderstanding about it. When these regiments are filled there will be no opportunity for the volunteers under the present call. However, a State Guard will be organized to take their places, and companies formed or in process of formation may apply to the Adjutant General for places in the State Guard."

THE latest dispatches bring the startling information that Nicola Tesla, the great electrician, has discovered a plan to blow up any warship afloat by artificial lightning, generated by a powerful electric "oscillator." A similar instrument of small power is used in wireless telegraphy. The oscillator, it is claimed, can send an electric spark almost any distance and through any substance. Directed into a hostile vessel, it would act like a percussion cap in the magazine, and the magazine would do the rest.

DEATH'S MESSENGER

Visits a Maysville Home, and Another Long and Useful Life is Peacefully Ended.

Mrs. Cynthia Ann Warbinton died last evening at 6 o'clock after a short illness at the home of her daughter, Mrs. Eliza J. Martin, of Limestone street.

Deceased was born April 6th, 1812, in Clermont County, O., and resided there about forty-six years. In 1857 the family moved to Kentucky, and she has lived in Maysville continually since that time. Her husband long since preceded her to the grave.

She also leaves several grandchildren and great-grandchildren, among the former, Messrs. George and Joseph Martin, of this city, and Mr. Duke Martin, of Tennessee.

The funeral services will take place tomorrow at 2 p. m. from the residence. Services by Rev. J. S. Sims.

ODDFELLOWS IN LEWIS

Yesterday Celebrated the Seventy-Ninth Anniversary of the Order With Appropriate Exercises.

At Concord yesterday the three lodges of Lewis County together with Encampment members and Daughters of Rebecca met to observe the seventy-ninth anniversary of the planting of the order on free American soil. From this nucleus a vast organization has grown, distributing a great sum of money which has comforted the widow and educated the orphan. Old Concord was early astir. Old glory swung to the breeze from flag-staff and lintel post, from window casement and roof eave, while music by North Liberty's splendid and enlivened things with inspiring marches and waltzes. These were but the roses in the path leading up to the splendid festal boards, the exercises of the day, and the final eclipsing act—a magnificent banquet.

At 2 o'clock the procession was formed at the hall and headed by the band marched through the little town and drew up at the Methodist Church for the principal exercises of the day. The music was in charge of the choir and was inspiring.

The speaking was by Maysville Odd-fellows and the whole in charge of Grand Marshall Hillis, of Vanceburg. The invocation was by Rev. James McCord, while the solo singing was done by Mr. W. O. Kirk and Mr. Harry C. Curran.

We have not time to elaborate this most charmingly observed day. Past

Grand Master Wm. H. Cox and Mr. Allan D. Cole fully sustained the reputation Maysville justly holds among the orators and speakers of Kentucky, while the good people of Concord added a new gem to their already crowded crown in that nothing was allowed to escape which would in any-way add to the joy of those within her gates.

CIRCUIT COURT is in session at Flemingsburg.

It is practically settled that the Second Regiment, Kentucky State Guard, consisting of 12 companies of 103 men each, will be mobilized in Lexington.

THE will of the late J. A. Slack has been admitted to record. His half-brother, Alfred M. Slack, is to have first choice of his horses; one half of remaining personality and real estate to his sister, Mrs. Mamie S. Barrett; the remainder of personality and realty to his brother, E. Crenshaw Slack. Mr. E. Crenshaw Slack has qualified as executor without surety, as requested in the will.

Y. M. C. A. Matters.

Mr. J. B. Wood's address on "God's Care of His People" Sunday was full of good helpful thoughts which was driven home by the forcible delivery and earnest manner of the speaker. The address was a very impressive one and sure to bear fruit in Christ's name. Mr. George Frank and Prof. H. E. Gabby also took part. Mr. Allan D. Cole led the singing in his able manner, the men present heartily participating.

The Boy's Committee are requested to meet to-night at 7 p. m.

"Just Before the Battle, Mother."

Monday night at Ironton the Regiment Band gave a concert at the opera house, which was packed. Only patriotic music was played. "Just Before the Battle, Mother," was rendered after it had been learned that the troops and band had received orders to leave at 9:31 Tuesday morning. Women were weeping and strong men cheering, with tears streaming down their cheeks.

The Tourist Club Adjourns.

Tuesday afternoon the Tourists disbanded, much to the regret of all, as the course gone over, under the skilful guidance of Mrs. George W. Sulser, has been a source of great pleasure as well as profit. Mrs. Sulser has kept ever in view the preparation for a jaunt abroad in 1900, but a great deal of good work has been done in the history, literature and art of each country visited (in the spirit), and a number of valuable and charming papers have been read on these subjects. Too much can scarcely be said of the skill and tact with which Mrs. Sulser has held the interest of so large a class—taught us as scholars, while ever welding the bonds of friendship still closer as woman to woman.

War and Wheat.

Some believe war will advance prices of grain, and others that it will depress them, says the Woodford Sun. In May 1861, shortly after the firing upon Fort Sumpter, and its surrender, the price of wheat in Chicago advanced to \$1.25, but in the following June and July it sold down to 55c. In March, 1863, it sold at \$1.07, and June of the same year went to \$2.23, and in November the same year, \$1.14. After that time range was downward, though in September, 1868, it sold at \$2, and crop of that year remained above \$1.

Submarine Mines.

New York, April 27.—The work of laying submarine mines in the lower bay is in progress. Thus far 74 mines have been placed in the bay, and it is believed that three times that number will be "planted" from Fort Wadsworth to Sandy Hook. Should a hostile fleet succeed in passing the Sandy Hook, they would come to grief in the harbor because of the mines and dangerous reefs.

EAST LIMESTONE.

Farmers are backward with their spring work. Prof. Turnipseed was taking the school census Saturday.

Robert H. Williams celebrated the anniversary of his sixty-second birthday April 15th.

Richard C. Williams has put out 20 fruit trees of choice variety mostly from the Deiterich nursery.

R. C. Williams killed a large snake six feet long the past week that was just emerging from its winter quarters.

Much of the fruit is killed, but from the amount of bloom, there is prospect yet of an abundance, if it doesn't drop.

Robert H. Williams desires to inform those interested in regard to the report that Miss Martha Drake, deceased, a former member of his household was taken to the infirmary at his instigation was a mistake and that he was not aware of the fact until after the permit was granted by the Judge to her sister.

The full intensity of living is reached only by the perfectly healthy. Sickness discounts the capacity for enjoyment. If his body is all out of order and run-down, he will not be able to enjoy anything, no matter how full of enjoyment it may be for other people. If he is just a little bit out of order, if he "is not sick, but doesn't feel just right" he will only be able to enjoy things in a half-hearted sort of way. The nearer he is to being perfectly well, the nearer will his capacity for enjoyment be perfect. If this condition doesn't exist, something ought to be done. That means nine cases in ten the use of Dr. Pierce's Golden Medical Discovery. It works directly on the digestive organs, and on the blood and through these on every tissue of the body. It makes the appetite good, digestion and nutrition perfect and supplies rich, red blood to all the tissues, building up solid, healthful flesh. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1003 page "Common Sense Medical Adviser," profusely illustrated.

THE GAME OF LIFE.

This life is like a game of cards, Which morals have to learn. Each shuffles, cuts and deals the pack. And each a trump doth turn. Some brings a high card to the top. And some bring a low; Some hold a hand quite full of trumps, And some but few can show.

In play! g. some throw out their trumps, Their winning cards to save—Some play the king, some play the duke, But many play the knave; Some play for money, some for love, Some play for worldly fame; But not until all hands are played Can any count his game.

When hearts are trumps we play for love, And pleasure rules the hour; No thought of sorrow checks our joys In beauty's rosy bower. We laugh, we dance, sweet verses write, Our cards of random play, And while the heats remain on top Our life's a holiday.

When diamonds chance to rule the pack The players stake their gold, And heavy sums are lost and won By players, young and old. Each one intent upon the game, Doth watch with eager eye That he may see his neighbor's cards And beat him on the sly.

When clubs are trumps, look out for war On ocean and on land; For awful deeds of blood are done When clubs are held in hand, Then lives are staked instead of gold, And dogs of war are free; And sad it is for any land When clubs are in the lead.

Last game of all is when the spade Is turned by hand of time; He waits the end of players' game's In every age and clime; No matter how much each one wins Or how much each one saves, The spade will reckon up the game And dig the player's grave. —W. F. Lohr, in Commercial-Tribune.
